

There is an explorer in all of us. No matter how much of a geek you are, every once in a while, you feel the need to just go out there and enjoy the real world. So if you want to go on a trek and are looking to find some interesting places near you, technology can help you with that too. If you have a [Windows Phone 7](#) device, you can use **Around You Wiki**, a new, handy app that will not only point out noteworthy places near your current location, but also give an introductory article about each.

AROUND HERE WIKI

map view list v

Berlin Old Nordbahnhof

The old Berlin Nordbahnhof was a short-lived passenger railway terminus in Berlin, Germany. It was situated in Prenzlauer Berg, close to the borders with Gesundbrunnen, in the area of the "Mauerpark". (...)
