

Popular multi-platform note-taking service, [Evernote](#) seems to have decided to expand its areas of interest. The company launched two new apps for

[iPhone](#)

yesterday, namely Evernote Food and

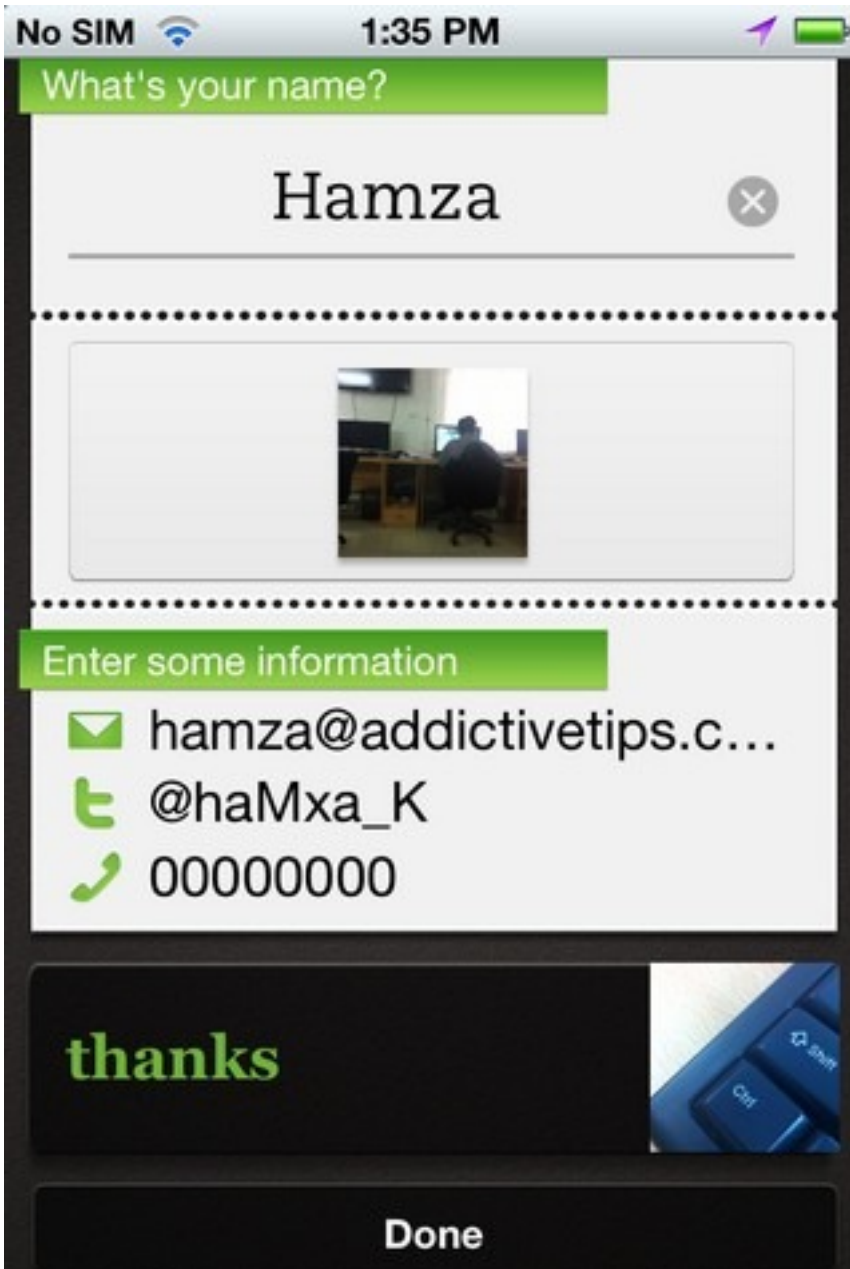

**Evernote Hello.**

You can read all about the former in

[our review of the app](#)

. The latter, Evernote Hello, is an app which focuses on providing users with a way of remembering every person they meet along with all the details of the meeting. Read on past the break for details.
