

**Checklist** is a [web service](#) that conveniently allows you to create and manage lists. It is completely free and only requires a simple sign up. With checklist, you can access your lists online or on your mobile & your work is automatically synchronized. The checklists come with due dates, reminders and notes. Furthermore, there is no limit to the number of lists you can create. Checklist is easy-to-use and doesn't complicate the way we manage our tasks. The service specially comes in handy when you need to organize multiple tasks.

Checklist allows you to manage tasks and get things done quicker. From Checklist's homepage you can easily search for any type of checklist. It consists of an extensive collection from different categories, ranging from, moving checklists, property checklists, personal checklists and more.

The screenshot shows the Checklist website homepage. At the top left is the Checklist logo with a checkmark icon and the tagline "get things done". To the right of the logo are navigation links: "My Checklists", a language dropdown set to "English", a "+1" badge, a "Like" button with a Facebook icon, and a "425" badge. A search bar is located at the top right. Below the navigation bar is a main content area with three columns of promotional text and icons. The first column features a plus sign icon and the text "Manage lists & tasks" with a subtext "Add tasks or groups. Set due dates, reminders & notes. Easy as 1-2-3." The second column features a crossed-out document icon and the text "100% Free" with a subtext "Create a FREE account to manage your checklists. Unlike other services, ours is 100% free and your privacy is always kept secure!". The third column features a mobile phone icon and the text "Access anywhere" with a subtext "Your checklists are available on your mobile. Your work is synchronized." At the bottom of the page is a large orange search bar with the text "Search for a checklist..." and a "Go!" button. To the left of the search bar is the text "Get things done! Start right now!" and to the right is "100% No Inst".

To start off, you can explore the existing checklists. You will find two categories, *Hot Checklists* and *Latest Checklists*.

In addition to that, you can create your very own checklists by clicking the *Create a Checklist* button.

Each checklist has a number of [tasks](#) that you can view. When you mouse over these tasks a *Use this list*

! tag appears over them. Click the task and a

*Customize This Checklist*

box will appear, which will allow you to change the name of the checklist. Once done, click *Create*

and

the checklist will be added to your dashboard.
