

There are quite a few PDF readers on the App Store, but this is the first time we've come across an app for [iOS](#) that lets you read and annotate multiple PDF documents simultaneously. The app is called **PDF+PDF Lite** and it is designed specifically for the [iPad](#). The app is designed to relieve you of the headache of consulting and annotating books, journals and documents when the time is scarce and you have ample studying to do. With PDF+PDF Lite, you can crop pages in a PDF doc, change background color, annotate important sections and copy text from one PDF document to the other all within the app.

PDF+PDF Lite: Read Annotate Two PDF Documents Side By Side [iPad]

Thirdly: Use tools

Here are six little tasks for you, complete them!

Task 1: Summon and hide tools panel

- Tap on screen, the panel would appear in the central!

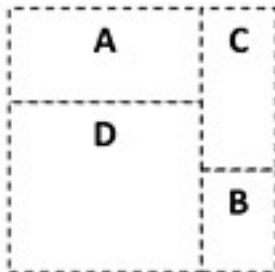

- Another tap out of the panel to hide it!

Task 2: Copy pdf content and paste it

- Tap on clipping button: 
- Copy following pictures

- Paste it here:

Develop communications-enabled business processes

Integrating communications in business processes can reduce human latency, real-time communications capabilities like alerts and notifications that are multimodal, and can help cut down the human latency between steps in work optimize the end-to-end processing time of a business workflow significantly.

Figure 27: Unified Communications workflow elements

Business Process Communications enable the

- Alerts and notifications
- Outbound interactive surveys via IM
- Expert finders or role agents

More advanced scenarios enabled by the Unified Communications Platform include SIP-based applications, such as call centers (see Figure 27).

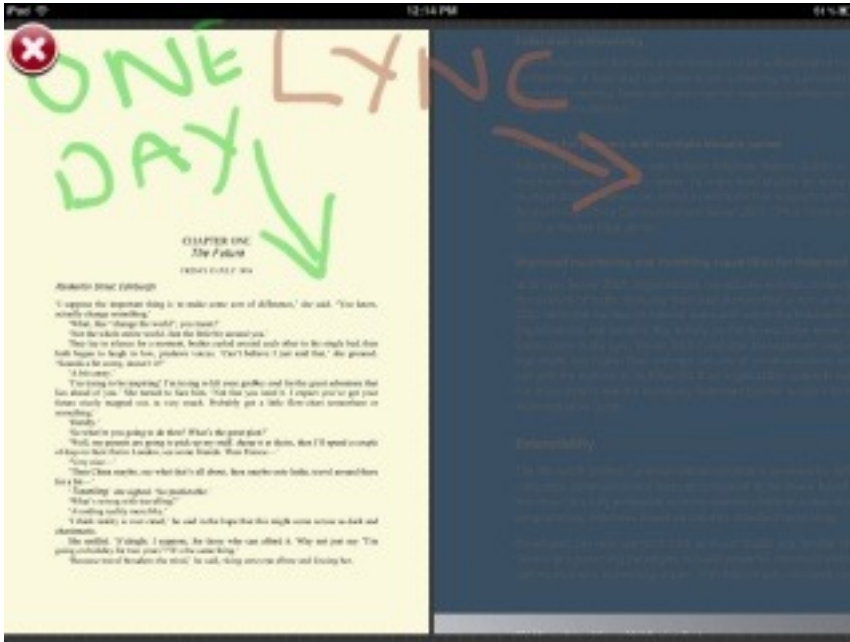

Support sophisticated call center scenarios

Lync Server 2010 supports sophisticated call center scenarios such as IVR, ACD, and Call Recording. These scenarios are introduced with Microsoft Unified Communications (UCMA 3.0).

Built-in speech recognition

State-of-the-art speech technology now in 2010, Microsoft Speech Platform, a zero-server-based speech platform that ships with Windows 7, is available for UCMA 3.0.

When you use the tools, the copy and paste buttons are always available on the right side of the screen. The copy and paste buttons are always available on the right side of the screen.
